Education

Electrical and Electronics Engineering
Biju Patnaik University of Technology (BPUT)
July 2019 - April 2022

Masai School (Full Time)
Full Stack Web Development

Technical Skills

JavaScript React HTML5

CSS3 Node.js MongoDB

Responsive Web Design

Express.js RESTful APIs

Git Redux

Soft Skills

Teamwork Adaptability

Problem Solving

Jagannath Sethi
Full Stack Web Developer

Professional Summary

Dynamic Full Stack Web Developer with a strong proficiency in the MERN stack, including Node.js, Express.js, React.js, and MongoDB. Excels in collaboration, problem-solving, and Generative AI for quick adaptation to new technologies. Passionate about improving code quality and development efficiency.

Projects

WhiteBoard   Live Demo Link   Github Repo Link

JavaScript HTML5 CSS3

Responsive Web Design Git

- Designed and implemented authentication and user management for secure access to drawings.
- Developed features for saving, editing, and deleting drawings, enhancing user interactivity.
- Worked on the frontend, utilizing JavaScript, HTML5, and CSS3 to create a responsive canvas for freehand drawing.
- Collaborated with a team of 4 using Git for version control and collaborative development.

Edtech   Live Demo Link   Github Repo Link

JavaScript Redux React Node.js Git

HTML5 CSS3 Responsive Web Design

- Developed a responsive web application for the EdTech Learning Platform using React.js, enhancing user experience across devices.
- Implemented efficient server-side APIs with Node.js and Express.js to support complex features such as user authentication and course management.
- Integrated Redux to manage application state, ensuring seamless interactions between components and enhancing performance.
- Created and optimized MongoDB database models and queries to support dynamic user profiles and course transactions.
- Conducted thorough testing and debugging to ensure application reliability and functionality, addressing any issues promptly.
